Keychain ideas!

- will actually have to flip and check for once since they'll be drawn backwards
- is this too small for charms?
- I should try my best to keep their sizes consistent
- holes at top and bottom adds order flexibility, but you'd have to add a charm at the bottom

There's an optimal chin shape and I don't know it!!!

Maybe rounder for Hina + Grassy?

I almost always make this character's face long unintentionally
Is my face like this??

It'll have that but I think it looks okay

leisure of "gummy nose"

forehead length is closer to matching with a smaller chin like on Yoda

This one is vs. 9/3

Shortening nose to chin more makes him younger

Can play with jawlines too but I don't really want them to have strong jaws

A flared cheeks too

Kiaa... Gaa...

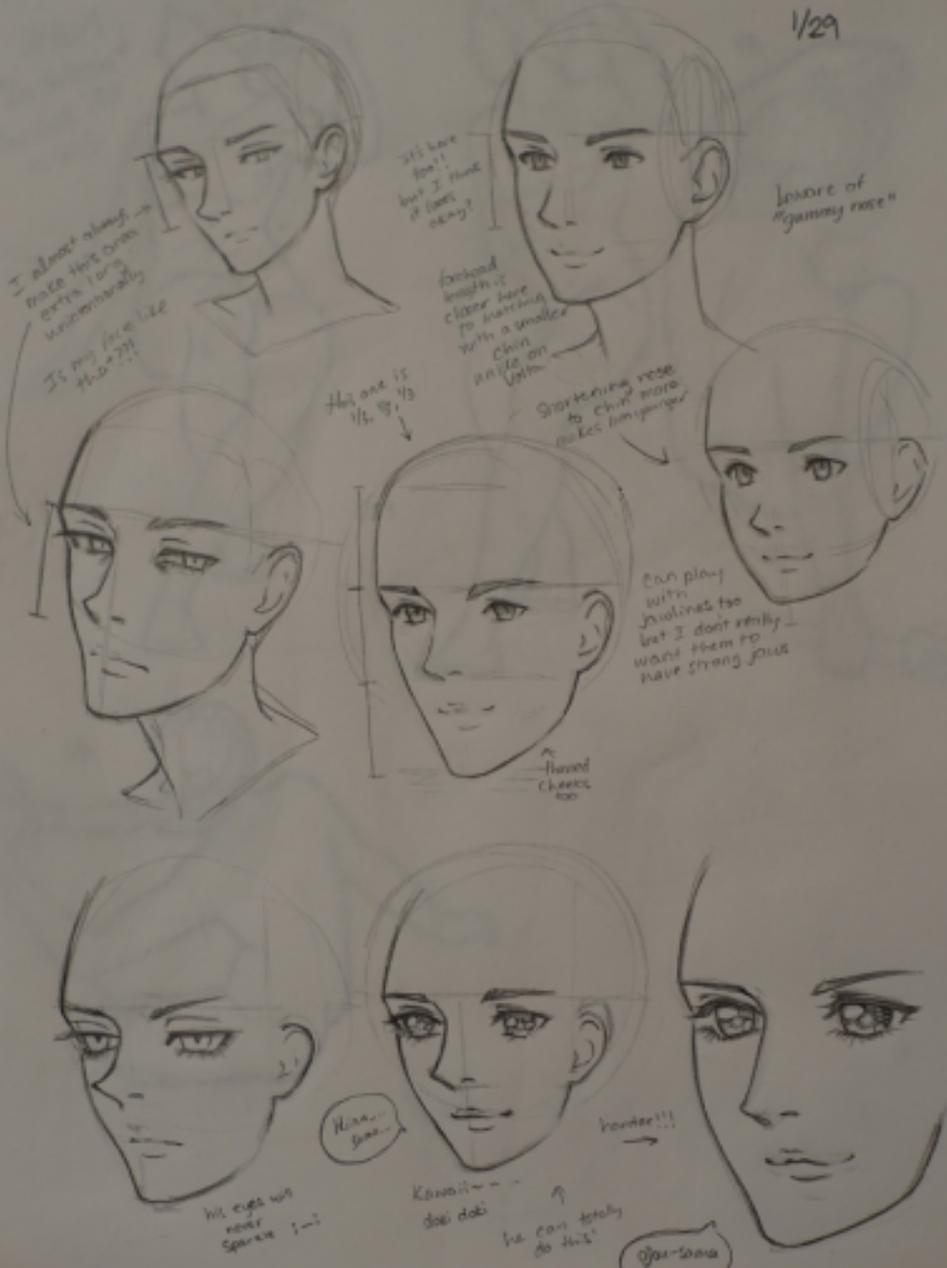

hahaha!!!

his eyes was near square :-(

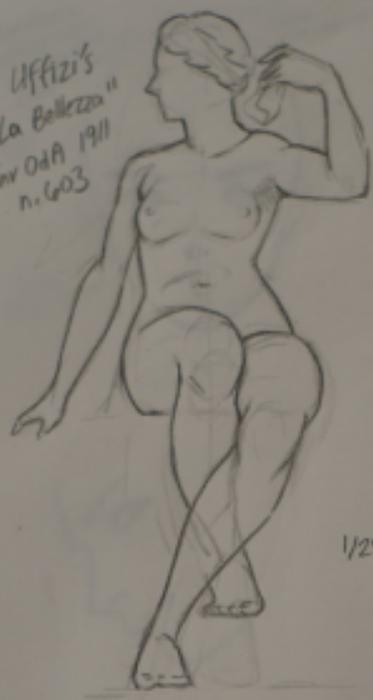

Kawaii... doi doi

he can totally do this
